A: **I Who Have Never Known Men**

4. What US territory is the largest and southernmost of the Mariana Islands?

A: **Guam**

5. Who is the headmistress of Crunchem Hall Primary School and the primary antagonist of Roald Dahl's *Matilda*?

A: Miss **Agatha Trunchbull** (accept either underlined part)

6. What two-word phrase refers to the final step a bill must take to become law in Canada, which typically requires the Governor General to approve the bill on behalf of the British monarch?

A: **royal assent**

Set of 4: Pascals

7. The force applied perpendicularly over a given area is the definition of what quantity measured in pascals?

A: **pressure**

8. Pedro Pascal plays millionaire Harry Castillo in what 2025 romantic comedy drama, the second film written and directed by Celine Song?

A: **Materialists**

9. What number appears at the beginning and end of each row in Pascal's Triangle?

A: **one**

10. What team traded Jordan Nwora, Kira Lewis Jr., and Bruce Brown for Pascal Siakam in 2024?

A: **Indiana Pacers** (accept either underlined part)

Jackpot

11.

Part 1: Around one ton per second of material is supplied by what solar system moon to its namesake plasma torus and the magnetosphere of its planet?

Part 2: Loki and Pele were discovered by Voyager 1 on its flyby of this moon, which has the highest density and surface gravity of any natural satellite.

Part 3: This moon is the most geologically active object in the solar system.

Part 4: Larger than Europa but smaller than Callisto and Ganymede, this Galilean

moon has the shortest name of any moon of Jupiter.

A: **Io**

Set of 3: Spread of Islam

14. Rapid military expansion, including the conquest of Persia, occurred during the reign of what first Islamic caliphate?

A: **Rashidun** Caliphate

15. What island is home to the port of Perlak in the region of Aceh, the first part of Indonesia to begin converting to Islam, and is the largest island owned entirely by Indonesia?

A: **Sumatra**

16. What modern day country was home to a sultanate that asserted control over the south before the emergence of the Vijayanagara Empire as Hindu opposition?

A: **India**

Double Jump

17. At the 2025 Game of the Year Awards, Best Art Direction, Best Role Playing Game, Game of the Year, and seven other major awards were won by what French video game?

A: **Clair Obscur: Expedition 33** (accept either underlined part)

18. In the game, Expedition 33 is sent out following a yearly event with what name, in which everyone in Lumière aged 33 or older disappears?

A: the **Gommage**

Double Jump

19. Running back Kenneth Walker III won Super Bowl MVP playing for what winning team of Super Bowl LX ["sixty"]?

A: **Seattle Seahawks** (accept either underlined part)

20. After a brief stint serving as the defensive co-ordinator for the Baltimore Ravens, who replaced Pete Carroll as coach of the Seattle Seahawks?

A: Mike **Macdonald**

5-Part Mystery Link

21. What British navy ship was captained by William Bligh until he was removed and set adrift in an infamous 1789 mutiny?

A: HMS **Bounty**

22. What four-letter Greek prefix precedes "dynamics" in the name of the branch of physics and engineering concerned with the motion of objects through air?

A: **aero**

23. What author wrote of Jim, who sells his watch to buy combs for Della, who sells her hair to buy a chain for Jim's watch, in "The Gift of the Magi"?

A: O. **Henry** (accept: William Sydney **Porter**, but reveal: O. **Henry**)

A: **chariot**

29. In Norse mythology, the wolf Sköll eternally chases what sun deity across the skies until she is caught during Ragnarok?

A: **Sól**

Electrons in Chemistry

30. Eight electrons orbit the nucleus of a neutral atom of what element, corresponding with its atomic number of 8?

A: **oxygen** (accept: **O**)

31. Who discovered the electron in his cathode ray tube experiment, which led him to propose a "plum pudding" model of the atom?

A: **J. J. Thompson**

32. What type of bonding is characterized by a lattice of cations surrounded by a sea of delocalized electrons?

A: **metallic** bonding

33. The reactant gains an electron in which half of a redox reaction?

A: **reduction** reaction

Set of 3: Oddly Specific Words

34. According to *The Dictionary of Obscure Sorrows*, what word refers to the realization that each random passerby is "living a life as vivid and complex as your own"?

A: **sonder**

35. What specific structure is someone being thrown out of if they are being defenestrated?

A: **window**

36. Coming from the Ancient Greek words for "stone" and "god's blood," what word means the smell of rain on dry ground?

A: **petrichor**

Set of 4: The Great Lakes

37. What short waterways separate the Upper and Lower Peninsula and connect the Great Lakes of Huron and Michigan?

A: Straits of **Mackinac** ["MACK-ee-NAW"] (accept: **Mackinac** Straits)

38. Duluth, Sault Ste. Marie ["SOO SAINT muh-REE"], and Thunder Bay are all located on what largest Great Lake?

A: Lake **Superior**

39. Treasure Island and Kakawaie Island are both islands in lakes on what island, itself located in Lake Huron?

A: **Manitoulin** Island

40. Cold air moving across long expanses of warm water creates what regional weather phenomenon, which affects areas near the Great Lakes in the wintertime?

A: **lake-effect snow**

Double Jump

41. Robert "Bob" Crowley and Rob Cesternino were both highly successful contestants on what reality TV show hosted by Jeff Probst?

A: **Survivor**

42. What other Survivor contestant named Rob lost to his future wife on *Survivor: All Stars* before winning *Redemption Island*?

A: Rob **Mariano** (accept: **Boston Rob**)

Double Jump

43. On Easter 1478, a member of what prominent family was killed at the Cattedrale di Santa Maria del Fiore in Florence?

A: Medici family

44. What family responsible for the plot to kill the Medici brothers names the conspiracy?

A: Pazzi family

6-Part Chain

45. The "Fun Factory" is a separately-sold device intended to impress designs on what clay-like children's toy?

A: Play-Doh

46. What modern-day country was home to ancient philosophers like Anaximander and Plato?

A: Greece

47. What natural phenomenon partially names a car which John Travolta's character Danny sings about in the movie adaptation of *Grease*?

A: lightning

48. What rockstar appeared on the cover of his 1973 album *Aladdin Sane* with dyed orange hair and makeup covering his right eye with a lightning bolt?

A: David Bowie (accept: David Robert Jones, but reveal: David Bowie)
